

CompTIA Network+

Preparatory Course

About CompTIA Network+

The CompTIA Network+ certification is the sign of a competent networking professional. It is an international, vendor-neutral certification that proves a technician's competency in managing, maintaining, troubleshooting, installing and configuring basic network infrastructure.

Since its introduction in 1999, more than 235,000 people have become CompTIA Network+ certified. Microsoft includes CompTIA Network+ in their Microsoft Certified Systems Administrator (MCSA) program, and other corporations such as Novell, Cisco and HP also recognize CompTIA Network+ as part of their certification tracks

Key benefits for becoming CompTIA Network+ certified

CompTIA Network + Exam

Number of questions	100
Length of test	90 minutes
Passing score	720 (on a scale of 100-900)
Exam codes	N10-005

The Network+ exam contains situational, traditional and identification types of questions. All of the questions are multiple choice, and there is only one answer for each question. The Network+ exam is open to anybody, although it is designed to be taken by those with at least 18 months of on-the-job experience as a network technician, as well as the A+ certification or equivalent knowledge.

The Network+ exam tests the ability of a networking technician to install, maintain, troubleshoot, and support a network, and understand various aspects of networking technologies, including TCP/IP and the OSI model. It also tests knowledge of network components and where they function in association with the OSI model, network cabling, network security, and network troubleshooting.

Venue

All classes will be held at the LightSparc Training Center at the corner of Jeremy Street and Chaussee Road above the Cadasse Bakery.

Fees

The cost of the CompTIA Network+ course is XCD\$2000.00 one-time payment.

OR

Payment Plan: Students can to pay two (2) instalments of \$1100 each.
