

MCSA: Windows Server 2012

About MCSA: Windows Server 2012

The Microsoft Certified Solutions Associate: Windows Server 2012 (MCSA: Windows Server 2012)

credential is the leading certification for Windows Server 2012. By earning this certification, you gain hands-on experience, in-depth knowledge, and industry-recognized validation, to help build employers' confidence in your skills. Whether you are looking to install, deploy, delegate, update, or secure your Windows Server 2012 computers, this course will guide you into becoming a highly qualified server administrator. For more information on the **MCSA: Windows Server 2012** credential, go to <https://www.microsoft.com/learning/en-us/mcsa-windows-server-certification.aspx>

The MCSA certification:

- Focuses on a specific job role, allowing for in-depth validation of your skill set
- Allows you to earn more than one MCSA certification, demonstrating your abilities across multiple roles
- Builds on a combination of Microsoft Certified Technology Specialist (MCTS) prerequisites, helping you develop your technical resume with each step in your MCSA career path.

MCSA: Windows Server 2012
