

# Risk Management Professional (PMI-RMP)

## About the Risk Management Professional (PMI-RMP)

The PMI-RMP credential acknowledges the individual's unique expertise on the project team while demonstrating the recognition and value the role provides to the project management profession. In this role, an individual has more competence in the specialized area of assessing and identifying project risks while mitigating threats and capitalizing on opportunities than a general practitioner and yet, also maintains a basic level of competence in all areas of project management.

Employers can trust credential holders to possess the skills, knowledge and experience to contribute directly to their crucial projects. This global credential also supports individuals in meeting organizational needs; organizations can be confident in hiring capable, experienced project risk management practitioners as well as having a means for a career development path.

## Who Should Apply?

If you have advanced knowledge and experience in risk management, or if you are a project manager focused on project risk management, including for large projects and/or complex environments, then the PMI-RMP is an excellent choice for you.

The PMI-RMP (Risk Management Professional) course is best suited for

- Project Managers
- Line Managers
- Aspiring Project Managers, Program Managers
- Risk Management Consultants
