

## MCSA: SQL Server 2012

### About SQL Server 2012

SQL Server 2012 enables customers to build mission-critical applications and Big Data solutions using high-performance, in-memory technology across OLTP, data warehousing, business intelligence and analytics workloads without having to buy expensive add-ons or high-end appliances. SQL Server 2014 uses a common set of tools to deploy and manage databases both on-premises and in the cloud, which makes it easier for customers to take advantage of the cloud with existing skills.

Earning an MCSA: SQL Server certification will qualify you for a position as a:-

- Database Developer
- Database Analyst
- Database Administrator

### Courses:

**Exam 70-461** Querying Microsoft SQL Server 2012

**Exam: 70-462** Administering Microsoft SQL Server 2012 Databases

**Exam: 70-463** Implementing a Data Warehouse with Microsoft SQL Server 2012

### Venue

All classes will be held at the LightSparc Training Center at the corner of Jeremy Street and Chaussee Road, above the Cadasse Bakery.
